

Results-Based Decision Making

Getting from Talk to Action

Population: e.g. Children prenatal to age 5

Result: e.g. Children enter school healthy and ready to learn
What we want for children in plain English, plain Spanish...

Plus how we experience the result

Plus a Cost of Bad Results Analysis

Story behind the baselines:

The causes, the forces at work; the epidemiology of the baselines

Plus Information & Research Agenda Part 1

Partners with a role to play:

Public and private sector agencies and individuals

What works

What would it take to turn the curve in this community, best practices, best hunches

Plus Information & Research Agenda Part 2

Action Plan and Budget

What we propose to do: multi-year action plan and budget

How the "what works" pieces fit together in a **community system** of services and supports

Performance Measures: Measures of how well programs, services, supports, agencies and service systems, included in the action plan, are working: How much did we do? How well did we do it? Is anyone better off?
